August 20, 2020

To the families and community of the Cambria Heights School District:

We learned Wednesday evening, August 19, that a person associated with our cross country program, although asymptomatic, tested positive for COVID-19. The school district immediately contacted the Pennsylvania Department of Health (DOH) and continues to follow its guidance. Those individuals who we know may have had contact with this person have already been notified.

Upon learning this information, our families, coaches, and school officials acted swiftly and according to the district's approved Resocialization of Sports plan, which can be found on the district's website at www.chsd1.org.

As classes, athletics, and activities resume this fall, we recognize that this may not be the last time a person associated with the Cambria Heights School District tests positive for COVID-19. In each case, we will notify those in contact with the individual and the community at large in accordance with the recommendations of the Department of Health and with respect to each individual's privacy.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Michael Strasser

Superintendent
