Vertebrae Test 3/26/2019
15 Multiple Choice
35 Anatomical Identifications

Friday 3/22/2019: Read & Complete Laboratory Exercise 22. Study for Vertebrae Test.

By Chance in some way! conceivably, perhaps

Select for YOUR table one (1) cervical, thoracic, lumbar vertebrae.
Identify

YOUR

selected number
1 Name: atlas
2 Superior articular facet
3 Peg
4 Body
5 Laminae
6 Atlas articulation
7 Name: axis
Cervical
11 Name: Thoracic

12 Vertebral Foramen

13 nb. facet

14 Intervertebral Foramen
Inferior View

Pedicle

17 Name
Lumbar

18
20 Name
Sacrum

21 Name of individual bones (5)
Sacral

22 Transverse process

23 Sacral foramen
24 Name coccx

25 Name of Individual Bones (4) coccygeal
30 The purple color indicates?

Costal Cartilage True Ribs
False Ribs
Floating Ribs

29 The area from #31 through #32 is called the?

Sternum
Manubrium

cervical process

31
32

33
34

Spinal Cord

Nerve Root

nucleus pulposus
annulus fibrosus
intervertebral disc
